

## **Does the city inspect the work?**

All work is subject to inspection by the city. The number and type of inspections vary depending on the work being done. When the permit is issued, you will receive an inspection record sheet that lists the types of inspection that you will need. It is the owner or contractors' responsibility to call for an inspection when the work is ready. When you call, please have ready the work site address, the permit number and what kind of inspection you need. The inspections division makes every effort to accommodate requests for specific inspection times, if necessary. Please call 24 hours in advance to schedule an inspection and you will be scheduled with the next available opening.
